

Dual Use Undergarment Vest

Model : H40738

EnGarde Dual Use Undergarment Vest

Our recently improved EnGarde Dual Use Undergarment Vest is an ideal choice for law enforcement officers who occasionally need increased but concealable protection against high velocity rounds or machine gun threats.

The EnGarde Dual Use is the EnGarde De Luxe Undergarment Vest with two additional inside pockets that allow a light-weight NIJ Level III DYNEEMA® plate (10" x 12") to be inserted. The plates will provide better blunt trauma protection as well as the ability to return fire upon impact.

The EnGarde Dual Use Undergarment Vest weighs just under 1.9 kg (4.2 lbs) without the inserts and 4.8 kg (10.6 lbs) with the NIJ Level III 3D inserts.
